

Ex barrier for intrinsically safe detectors Series IQ8Quad Ex (i) and 9100

Part-No.: 764744

Approval: VdS, FM, ATEX

Ex-barrier type Z969 (071945) for conventional operation of intrinsically safe detectors from the IQ8Quad Ex (i) series in default groups in connection with the detector base 805590.

A safety barrier does not replace an overvoltage protection according to IEC 801, DIN VDE 0185 and 0855. VdS approval is not required.
