

The SafetyHub® Specification Sheets

NEW HAND SANITISER STATIONS

The Key Benefits of the SafetyHub®

An exceptionally tough, rotationally moulded plastic centre-point for your safety equipment and information, enabling you to locate it right where you need it most.

- ✓ Ultra Durable— almost entirely made from plastic the SafetyHub will never dent, rust or corrode therefore will serve you for many years.
- ✓ Highly Configurable SafetyHub is a new concept that is so much more than just a mobile fire point: it can be configured as a PPE station, First Aid point, Fire Safety centre, Spill Response hub, Safety Information centre... in fact, it can be configured to be exactly what you need it to be, wherever you need it.
- ✓ Tough Signage in a harsh environment, the signage stays looking good for longer, getting your message out reliably.
- ✓ 100% recyclable every element of the SafetyHub is constructed from materials that are tough enough to survive the harshest treatment whilst minimising environmental impact.
- ✓ Mobile Unit robust wheel assembly for ease of relocation around the project as required.
- ✓ Space for equipment whether you are using the Howler site fire alarm, ear plug dispensers, eye-wash station, spill response equipment or any other safety equipment there's room on the SafetyHub.
- ✓ 5 year guarantee The SafetyHub carries a 5 year guarantee against manufacturer defects giving you confidence and peace of mind.
- ✓ Client Branded space for client branding for your logo and slogans. Further improve your corporate image on site and show people that you care about safety.
