

Key Features

EN54-25 approved

868 – 870 MHz operating frequency

Powered by lithium metal batteries

Compatible with selected OEM conventional sounders

Available in red or white

Overview

The Wi-Fyre Wireless Sounder Platform has been designed to allow other, compatible sounders to be mounted directly on to its large area face-plate.

Approvals

Wi-Fyre is approved by TUV for safe use and installation in any European Union country and bears the CE mark to show that it complies with all the applicable Directives including the CPR, EMC and the Low Voltage Directive (LVD).

EN54-25:2008

Fire detection and fire alarm systems – components using radio links.

Tech Specs

Operating Frequency	868 – 870 MHz, 14dBm
Range	150m open area
Power Source	4 x Lithium AA Cell (Saft LS14500) 2 x Lithium C Cell (Saft LS26500)
Battery Life	Up to 3 years
Dimensions (Diameter x Height x Depth)	122 x 128 x 50mm
Weight (Including Batteries)	460g

Tech Specs

Housing Material	ABS
Colour	Red White
Tamper	Yes (Optional)
Applicable Standards	EN54-25, BS 5839 Part 1:2002, ENTSI 300:220
