Securefast

Securefast have a history of over 100 years in securing the UK's homes and businesses, offering the highest quality locking products to many of the leading retailers and electrical wholesalers.

Contents...

INDOOR Smartlock

INDOOR provides all the benefits of a wire free, wireless networked access control system but discreetly concealed inside the door. It leaves you free to choose your own lever furniture, providing a consistent look across access control and mechanically locked doors.

Using MIFARE® proximity technology, the networked Smartlock system can also incorporate ONDOOR and wall mounted readers, ideally suited to hotels, schools and offices.

For full details please contact us now.

Our stars are in the ascendant.

Securefast is able to provide 3 Star cylinder packages to TS007:2014

Our 1 star rated security cylinder offers protection from drilling, picking, bumping and plug extraction.

Our 2 star rated security escutcheon offers snap protection and prevents access to the cylinder.

Together, they provide the highest level of security with a 3 Star rating.

New range of Securefast electric strikes

NEW

- Supplied with long and short faceplate
- 12V DC with 300mm cable
- Fail safe and Fail secure settable
- 1000lbs holding force
- Easy replacement for Adams Rite, Trimec and Alpro strikes

For full details please go to page 82-83.

VANDERBILT ACT STANDALONE PIN AND PROXIMITY KEYPADS

Simple to use, versatile access control solution - standalone keypads by Vanderbilt (ACT) with a proximity reader.

The ACT5E prox has a capacity of 50 users, which makes it suitable for a small to medium size business.

The ACT10 keypad is very versatile, and comes with a sleek modern edge design. The keypad comes in a light silver grey and black shell, with a backlit coloured illuminated green. It is also easy to program with up to 10 user codes, it can be used indoors as well as outdoors, and it can be used surface or flush mount.

VANDERBILT ACT STAND ALONE PIN & PROXIMITY KEYPADS	
ACT5E	Stand-alone digital Keypad, 10 codes, backlighting (indoor/outdoor IP67)
ACT10	Stand-alone digital keypad, 10 codes, interlock, door monitoring (indoor/outdoor IP55)
ACT10FK	Stainless steel flush mount kit for ACT 10
ACT5EPROX	Stand-alone Keypad, 2 Relays, 50 codes and Cards, backlighting (indoor/outdoor IP67)
ACTENTRY-A5KIT	Digital Keypad with integrated audio entry panel and intercom (10 PIN codes, 2 Relays)
ABW-V42	Compact Surface Keypad 2 Codes 12/24V AC/DC (Pin & Peg Code Selection)
ABW-V44DUO	Compact Code-lock with 4 code combinations, advanced mode option. Internal/external use
ABW-BB3	Flush Back Box to suit V42 Keypad

VANDERBILT ACTPRO RANGE OF CONTROLLERS & DOOR STATIONS

- Networkable to up to 4,000 doors, the ACTpro 4000 can manage up to 60,000 users
- Installation has been simplified by the inclusion of an auto-discovery button in the ACTWin 2.8 software. When this is pressed all the controllers and door stations on the network are located.
- The installer can view the controller configuration and verify network communications via a specially designed controller status web page.

VANDERBILT ACT IP CONTROLLERS	
ACT365ACU	Single door IP Cloud Controller c/w 2 Amp PSU
ACTPRO1500	Single door IP controller with Dual Ethernet switch and expandable to 32 doors with door stations*
ACTPRO1520E	Single door IP controller with 2Amp PSU and Dual Ethernet switch and expandable to 32 doors with door stations*
ACTPRO4000	Two door IP controller expandable to 16 doors with door stations*
ACTPRO4200	Four door IP controller expandable to 16 doors with door stations*
* NOTE (IP Controllers function with all ACTpro controllers).	

VANDERBILT DOOR STATIONS	
ACTPRO100E	Single Door Station for use with ACTpro 1500, 1520, 4000, 4200
ACTPRO120E	Single Door Station / Expander with 2 Amp 12V DC PSU for use with ACTpro 1500, 1520, 4000, 4200
ACTPRO200	Two Door Expander, 3 Amp monitored PSU for ACTpro 1500, 1520, 4000, 4200

ACCESS CONTROL SYSTEMS

ACCESS CONTROL SYSTEMS

VANDERBILT ACTPRO SOFTWARE AND READERS

- The Vanderbilt ACT range of proximity readers are heavy duty in design and are available with a range of technologies.
- Tri-colour LED indication
- Clock & Data or Wiegand Output
- Robust Polycarbonate housings
- IP67 Rating
- The ACTpro1040E & Actpro1050E can be mounted on a standard single gang electrical back box

VANDERBILT ACTPRO SOFTWARE	
ACTPRO-ENT	ACT Enterprise pro software for use with ACTpro controllers unlimited
ACTPRO-ENTLITE	ACT Enterprise Lite software for use with ACTpro controllers ; 100 doors and 1 PC FREE download from www.act.eu
VANDERBILT ACTPRO RFID READERS (125Khz)	
ACTPRO1030E	RFID Mullion proximity reader (IP 67)
ACTPRO1030PM	RFID Panel Mount proximity reader
ACTPRO1040E	RFID proximity reader Surface/Flush mounting collars provided (IP 67)
ACTPRO1050E	RFID proximity reader and Keypad Surface/Flush mounting collar provided (IP 67)
ACTPRO1060E	Keypad Surface/Flush mounting collar provided (IP 67)
ACTPROUSB	ACT USB multi format reader (MIFARE Classic, DESFire EV1, RFID) for use with ACTEnterprise 1.3.0.6 or later

AHID-1346	Proximity Tag: 125KHz Key Fob type

Securefašt Academy

Securefast offer free training sessions aimed at sales and specification personnel. Courses are available at any of our locations.

Each course offers the following basics:

• Introduction to Access Control
• Introduction to Hotel Locking
• Introduction to Networked Access Control

More advanced courses including installation/ commissioning and CPD courses on EN 13637, Electric Panic Systems and Access Control Security are available on request.

For details please contact the Sales Office

Securefašt

Incomplete systems or incompatible components?

With access control kits from Securefast, this sort of problem can be consigned to the past.
By bringing together all the components required for the most popular configurations, Securefast access control kits ensure all the components are fully compatible and the system is complete.
Call our sales office now for further information - **01704 502801**

AKT4223

Contains:
999 User Controller PCB
Proximity reader & 10 fobs
12V DC 1A power supply
Rim/mortice electric release
Exit switch

DEEDLOCK ACCESS CONTROL KITS

- Single door access control kits
- Available with keypad or proximity reader
- Securing the door can be either an Electro-magnetic Lock or Electric Release
- Easy to install by an electrician with minimal experience.
- Proximity reader for up to 999 users and is suitable for internal and external applications
- The kits come complete with all the hardware, only the electrical cable is required
- Z & L brackets are sold separately for inward opening doors

DEEDLOCK - MORTICE MAGNETS IN TRANSOM HOUSING

The Deedlock 200 series magnetic locks are designed to offer a clean line across the door transom with the magnet encased into the Satin Anodised Aluminium Housing.

As with all our magnets the 200 series magnets have been tested under the standard TS010 to give you complete satisfaction on your specification.

The magnets may be adjusted on site for 12 or 24V DC power. The ADX100 magnet is supplied with built in alarm and delayed exit.

DEEDLOCK HOLD-OPEN MAGNETS

The Deedlock Hold Open magnet is built around a robust fascia plate for flush mounting on a standard electrical back box.

A spring-loaded pin ensures zero residual holding force.

For surface mounting, the Deedlock fire door holder is supplied with a matching pressed steel surface mount box with 20mm knockouts.

The 230V AC unit includes a filter for EMC emissions.

A simple, legal solution to wirelessly hold open fire doors

listens &learns
the sound of
the fire alarm

10 minute
installation

The battery powered fire door retainer uses an electromagnet to hold open fire doors, releasing the door if the building's specific fire alarm sounds.

AGRIPPA SOUND ACTIVATED FIRE DOOR HOLDER

The Agrippa sound activated fire door holder is a battery powered solution for holding open a building's internal fire doors easing access for inhabitants and increasing ventilation.

New technology enables the fire door holder to 'listen and learn' the sound of your specific fire alarm during installation to ensure if the fire alarm sounds, the door will be released.

AGRIPPA SOUND ACTIVATED FIRE DOOR HOLDER	
AEM0371	Agrippa Wall Mounted Sound Activated Fire Door Holder (Battery operated)
AEMS002	Floor Mounting Bracket for AEM0371

DOORSENSE DOOR HOLDER

DoorSense is a standalone unit which can be fixed to a fire door in seconds to provide a reliable way to keep it open - but will automatically release if the fire alarm sounds.

DoorSense is incredibly easy to install, needing no wiring or special skills - it can even use the same footprint as some older units.

Once fitted, DoorSense is powered by two Alkaline C batteries for long working life, and has a Low Battery indicator to help you keep the unit in excellent working order.

ELECTRICAL LOCKING

ELECTRICAL LOCKING

ABLOY SOLENOID LOCKS & ACCESSORIES

- The Abloy EL range is a handle controlled, solenoid operated DIN electric lock.
- One handle (normally inside) will always operate mechanically allowing egress at all times. The other handle (normally outside) can be enabled or disabled electrically. This is normally activated by the access control system.
- The lock case can be adjusted in the field to be either fail locked or fail unlocked operation.
- Compliant to BS EN 179 and BS EN 1125

SOLENOID ELECTRIC LOCKING

Solenoid bolts allow for both remote access and exit control of most timber and metal doors. They are also suitable for sliding or swing, single or double action operations.

Solenoid bolts can be fitted in the frame or on the surface.

With concealed mortice mounting and slim line styling the bolts suit most narrow stile aluminium doors and narrow profile joinery.

AML-350M-PL-12 is 60min Fire Rated to EN 1634-1

GINGERS SPARK MICRO POWER LOCK

SDGi Micro Power Lock ideal for auto doors, especially for a pair where space between the operators is too narrow for conventional magnets or where the armature intrudes on the safety sensor position.

- 680kg (1500 lbf) Holding force per lock
- Multi-voltage input - 12V or 24V DC
- Very low current consumption 12V = 0.28A and 24V = 0.14A
- Early warning alarm if forced open or 0 - 30 second timer delay
- For outward opening doors the lock is fixed to the SDGi bracket allowing infinite adjustment backwards, forwards and sideways
- 5mm lateral & 1mm vertical adjustment on armature plate
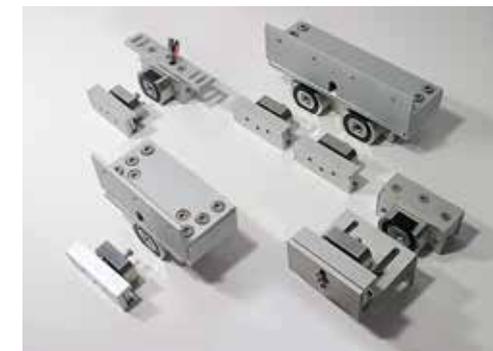

SDGI MICRO POWER LOCK	
AGS102	Single lock with SDGi bracket for Aluminium centre pivot and flush thermally broken open outward doors - Satin Anodised
AGS104	Double lock with SDGi bracket for Aluminium centre pivot and flush thermally broken open outward doors - Satin Anodised

DORCAS ELECTRIC RELEASES

- Suitable for low to medium traffic applications, with operating voltage from 8-12V DC
- Fail locked and fail unlocked versions are available with rim releases suitable for rim Nightlatches
- The releases suit latches with 12mm maximum throw and are supplied in grey powder coated finish

DORCAS

Electric Releases

Offering a comprehensive range of:
- Rim and mortice strikes
- Inward and outward opening options
- 12 volt AC and DC available
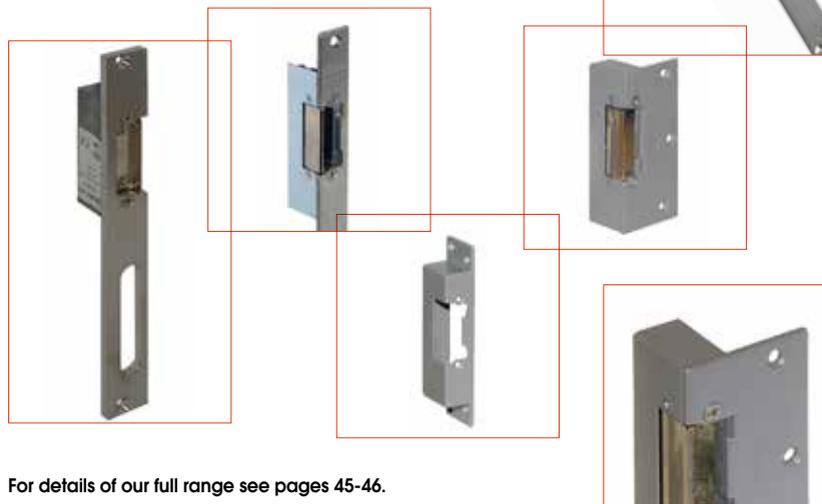

For details of our full range see pages 45-46.

DORCAS RIM & MORTICE ELECTRIC RELEASES	
ADCN203G	Rim, 12V AC Fail locked, Grey
ADCN203-412G	Rim, 12V DC Fail locked, Continuously Rated, Grey
ADCN203-512G	Rim, 12V DC Fail unlocked, Continuously Rated, Grey
ADCN203+S	Rim c/w Mortice plate 12V AC/DC Fail locked, Grey
ADCN203+S/FLEX	Rim c/w Mortice plate, 12V AC/DC Fail locked, With Adjustable jaw, Grey
ADCN203-412+S	Rim c/w Mortice plate 12V DC Fail locked, Continuously Rated, Grey
ADCN203-412+SFLX	Rim c/w Mortice plate 12V DC Fail locked, with Adjustable Jaw, Continuously Rated, Grey
ADCN203-512+S	Rim c/w Mortice plate 12V DC Fail unlocked, Grey
ADCN203-512+SFLX	Rim c/w Mortice plate, 12V DC, Fail unlocked, With Adjustable Jaw, Grey
ADCNG	Mortice, 12V AC Fail locked, Stainless Steel
ADCN412G	Mortice, 12V DC Fail locked, Continuously Rated, Stainless Steel
ADCN512G	Mortice, 12V DC Fail unlocked, Stainless Steel
ADCNG-FLEX	Mortice, 12V AC Fail locked, with adjustable jaw, Stainless Steel
ADCN412G-FLEX	Mortice, 12V DC Fail locked, Continuously Rated with adjustable jaw, Stainless Steel
ADCN512G-FLEX	Mortice, 12V DC Fail unlocked, Continuously Rated with adjustable jaw, Stainless Steel
ADCN305-412G	Mortice, 12V DC Fail locked, Continuously Rated with Latch monitoring, Stainless Steel
ADCN305-512G	Mortice, 12V DC Fail unlocked Continuously Rated with Latch monitoring, Stainless Steel
ADCN424G	Mortice, 24V DC Fail locked Continuously Rated, Stainless Steel
ADCN524G	Mortice, 24V DC Fail unlocked, Stainless Steel

DORCAS ELECTRIC RELEASES

DORCAS MORTICE ELECTRIC RELEASES	
ADCN412GE-LH	Mortice Sash lock, 12V DC Fail locked, Continuously Rated, DIN Left Hand, Stainless Steel
ADCN412GE-RH	Mortice Sash lock, 12V DC Fail locked , Continuously Rated, DIN Right Hand, Stainless Steel
ADCF206G	Surface Case Inward Opening, Grey (to suit Mortice Releases)
ADCF201C	Surface Case Inward Opening, Chrome (to suit Mortice Releases)
ADCN9	Outward Opening Rim Case, Grey (to suit Mortice Releases)
ADCN47	Mortice ANSI 12V AC Fail locked, Stainless Steel (for Aluminium frames)
ADCN47-412	Mortice ANSI 12V DC Fail locked, Continuously Rated, St. Steel (for Aluminium frames)
ADCN47-512	Mortice ANSI 12V DC Fail unlocked, Continuously Rated St. Steel (for Aluminium frames)

DORCAS HIGH SECURITY ELECTRIC RELEASES

- Dorcas ADCN50N is a high security release with 8000N holding force and is supplied fail locked only in 12V AC
- Dorcas AXK21L8 and AXK21R8 electric releases are designed for uPVC door sections and are supplied fail locked only in 12V DC

DORCAS HIGH HOLDING FORCE (8000N) MORTICE ELECTRIC STRIKE	
ADCN50N-PX	Mortice Release 12V AC Fail locked, Stainless Steel
ADCN50N400-PX	Mortice Release 12V DC Fail locked, Stainless Steel
DORCAS SASHLOCK ELECTRIC RELEASES FOR UPVC DOORS	
AXK21L8	Mortice Sashlock Electric Release 12V AC/DC, Fail Locked, DIN Left Hand, Stainless Steel
AXK21R8	Mortice Sashlock Electric Release 12V AC/DC, Fail Locked, DIN Right Hand, Stainless Steel

MAKE IT UNION

TRIMEC ES9000
Pre-Load Electric Strike

The perfect electric strike solution for harsh, high traffic areas.

- Designed for the most demanding commercial environments, the ES9000 is perfect for both first fit and refurbishment projects.

- With it's unique ability to operate with up to 25kg of pre-load pressure on the keeper, the ES9000 works on warped or dropping doors, or where unequal air pressure exists on either side.

- Strong, durable, and tested to over 2 million cycles, the ES9000 is the long lasting electric strike you can depend on.

DOORSENSE

The safe, legal and easy way to hold your fire doors open.

CE Marked to EN 1155, EMC tested and fire rated for timber doors (FD120) - legally allows fire doors to be held open for easier access.

Sound tested over 50,000 times to ensure reliable, long-lasting performance.

Quick and easy to install with no secondary installation costs such as electrical wiring. Retro fits existing door hold open devices.

A separate door closer must be installed. It is recommended DoorSense is used in conjunction with a professionally installed fire alarm system.

Trusted by **Professionals**

ASSA ABLOY, the global leader in door opening solutions

ELECTRICAL LOCKING

ELECTRICAL LOCKING

TRIMEC ELECTRIC LOCK & SOLENOID BOLT

The FTBES8000 series, also known as the V-lock is a high torque motorised bolt that moves from the vertical position to the horizontal state when locked.

The bolt moves into the V shaped strike plate pulling the door aligned with the lock.

The high torque motorised bolt can be concealed from view or surface mounted and has the world's first fail-open motor locking mechanism which eliminates the need for and cost of an additional key override function.

TRIMEC ELECTRIC LOCKING	
FTBES8002	Trimec "V" Lock Mortice Motorised Bolt 12/24V DC, Fail Locked
FTBES8001	Trimec "V" Lock Mortice Motorised Bolt 12/24V DC, Fail Unlocked
FTBES8000	Trimec "V" Lock Surface mounting kit for glass door applications
FTBES6001	Trimec Surface Mount Heavy Duty Hook Lock Monitored 12/24V DC Fail Locked/Unlocked
TRIMEC SOLENOID BOLTS	
FTB25PTL	Slimline Mortice Solenoid Bolt 12/24V DC, Fail Unlocked, Dual Monitored
FTB25PLO	Slimline Mortice Solenoid Bolt 12/24V DC, Fail Locked, Dual Monitored
FTB25SMK	Stainless Steel Surface Housing Set for FTB25
FTB25KO/PTO	Slimline Mortice Solenoid Bolt 12/24V DC, Fail Locked c/w Euro key override (excl. Cylinder)

TRIMEC ELECTRIC RELEASES

The ES110 is a cost efficient robust electric strike with a solid construction of one-piece cast aluminium body and stainless steel striker.

Having a deeper than normal strike-keeper area, ES110 is designed to work with an extensive range of locks and offers the same level of security and reliability usually provided by more expensive electric locking solutions.

TRIMEC ELECTRIC LOCKING	
All Trimec Electric Releases can be set for Fail Locked or Unlocked operation.	
FTS111060M	Weather Resistant ANSI Mortice, 12/24V DC, Fail Unlocked, Short & Long SS Faceplate
FTS112060M	Weather Resistant ANSI Mortice, 12/24V DC Fail Locked, Short & Long SS Faceplate
FTS151010M	Weather Resistant Rim, 12/24V DC Fail Locked/Fail Unlocked for Inward opening door
FTS201	High Security Mortice, 12V DC, Fail Unlocked for Metal door
FTS202	High Security Mortice, 12V DC, Fail Locked for Metal door
FTS2001	High Security Mortice, Dual Monitored 12V DC Fail Unlocked for Metal door
FTS2002	High Security Mortice, Dual Monitored 12V DC Fail Locked for Metal door
FTS2100	High Security Mortice, Dual Monitored 12 / 24V DC Fail Unlocked for Metal door
FTS2401	High Security Mortice, Dual Monitored Long Faceplate 12V DC Fail Unlocked
TRIMEC SOLENOID BOLTS	
FTS110SLUKLH	Mortice Sashlock UK Faceplate, Left Hand for 110 series
FTS110SLUKRH	Mortice Sashlock UK Faceplate, Right Hand for 110 series

FTSEX1150	Mortice Extension Lip 50mm for 110 series
FTSS1113	Mortice Rebate Plate 13mm for 110 Series

ACCESS CONTROL ACCESSORIES

ACCESS CONTROL ACCESSORIES

DEEDLOCK POWER SUPPLY UNITS

- Ideal for use with; access control, intruder alert and general security applications
- 12V DC switch mode units with either 1A, 2A, 3A or 5A
- Full electronic short circuit and overload protection on load output under mains protection
- Lid open and REAR anti-vandal tamper detection
- Green mains present LED
- Red fault LED
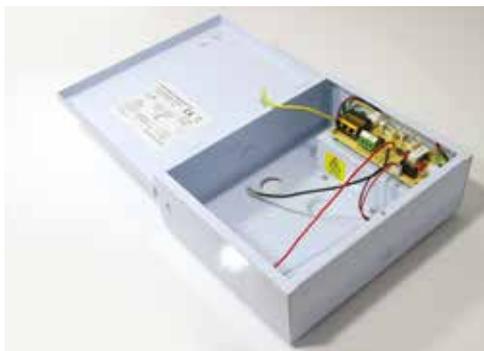

DEEDLOCK POWER SUPPLY UNITS	
ADP121A	12V DC 1 Amp Switch Mode Power Supply, (200 x 240 x 75mm)
ADP122A	12V DC 2 Amp Switch Mode Power Supply, (200 x 240 x 75mm)
ADP123A	12V DC 3 Amp Switch Mode Power Supply, (200 x 240 x 75mm)
ADP125A	12V DC 5 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
ADP241A	24V DC 1 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
ADP242A	24V DC 2 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
ADP243A	24V DC 3 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
ADP245A	24V DC 5 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
ADP2410A	24V DC 10 Amp Switch Mode Power Supply, (360 x 330 x 90mm)
DEEDLOCK TRANSFORMERS RECTIFIER BOXED	
ADP241-TR	24V DC 1 Amp Boxed Transformer Rectifier (200 x 240 x 75mm)
ADP242-TR	24V DC 2 Amp Boxed Transformer Rectifier (200 x 240 x 75mm)
ADP244-TR	24V DC 4 Amp Boxed Transformer Rectifier (200 x 240 x 75mm)

EXIT BUTTONS

AEB6/F	Deedlock Flush Heavy Duty Green Dome Exit Button, "PRESS TO EXIT"
AEB6/SUR	Surface Heavy Duty Green Dome Exit Button "PRESS TO EXIT"
AEBBOX	Surface Box Single Gang for AEB2, AEB5, AEB6 & AEB-KS range
AEBBOX-NR	Surface Housing Narrow Style Architrave
AEBBOX-GN	Green Surface Housing for AEB7
AEB2WR	Flush Wireless Exit Button c/w Receiver Unit (12V DC)
AEBHS	Wireless Handset for AEBWR Receiver

PLASTIC BUTTONS

- Contacts : Changeover contacts
- Output: 10 Amp contact @ 240V AC/DC
- Printed pad legend
- Fixing screws provided
- Internal use only

EXIT BUTTONS - PLASTIC	
AEB1NR	White Plastic Exit Button c/w Surface Box, "PRESS TO EXIT"
AEB8	Narrow White Plastic Exit Button c/w Surface Box, "PRESS TO EXIT"

SPECIAL NEEDS EXIT BUTTONS

- Contacts : Double Pole NO - NC - COM
- Output : 4 AMP contact @ 30V AC/DC
- Wear resistant legend
- Security screws (Allen key type)
- Voltage free contacts
- Can be surface or flush fitting
- All active 360 push plate
- Stainless steel push plate

PUSH SWITCHES FOR SPECIAL NEEDS	
AEB10	Narrow Button "PUSH TO OPEN" with Wheelchair Logo c/w Surface Box
AEB11	4" Round All-Active Switch with Wheelchair Logo c/w Surface Box
AEB12	4" Round All-Active Switch "PUSH TO OPEN" c/w Surface Box
AEB14	4" Round All active Switch "PUSH TO OPEN" with Wheelchair Logo c/w Surface Box
AEB15	Flush 4.5" Round Switch "PUSH TO OPEN" with Wheelchair Logo
AEB15BB-S	Stainless Steel Surface box for AEB15
AEB15BB-B	Black Plastic Surface Box for AEB15
AEB16	3.35" Round Switch, Green Surface Back Box "EXIT"
WIRELESS SWITCH KITS (NOTE: KITS REQUIRE TRS101 RECEIVER)	
TRFKIT-1	T4X4-1 Blank Switch with transmitter and back box
TRFKIT-2	T4X4-2 "PUSH TO OPEN" Switch with transmitter and back box
TRFKIT-3	T4X4-3 "PUSH TO OPEN" with Wheelchair Logo Switch with transmitter and back box
TRFKIT-4	T4X4-5 Wheelchair Logo Switch with transmitter and back box
TSURF4SB	Surface box with battery door
T5802-MOD	Radio Transmitter modified for use with switch and back box
TR5101	Single Channel Receiver - 30 Codes

IP66 RATED EXIT BUTTONS

- Surface mounted exit buttons offer an effective solution for external egress and other switching applications which require a high level of protection
- The IP66 rated exit buttons give total protection against the ingress of dust and also protects against strong jets of water with limited ingress permitted
- Momentary contact with maximum current rating 2A

IP66 RATED EXIT BUTTONS	
AEB41	Yellow/Black Backbox with Momentary Green Dome "PRESS TO EXIT"

KAC Devices for Security Applications
Trusted The World Over for More Than 40 Years

KAC delivers a comprehensive range for security and evacuation. Devices are robust, reliable and designed for fast and simple installation.

To find out more, visit **www.kac.co.uk**

NEW

New Triple Pole call Point
• Flexible solution for integrated security systems
• Ensures best practice failsafe unlocking of the exit
• Supplied with choice of function markings

Call Points

• Door security and evacuation
• Indoor and outdoor
• New triple pole model

AV Devices

• ENscape EN54-23 VADs
• Outstanding sound & light output
• Wall & ceiling mount

Switches

• Choice of Keyswitch, Rockerswitch and Push button models

MANUAL CALL POINTS

The KAC call points are available with break glass or resettable
• KAC call points give easy plug and play installation
• The surface mounted KAC call points are available as single, double and triple pole

The Securefast call points are available with break glass or resettable
• The surface mounted call points are available as single, double or triple pole

SERIES 2 AUDIO DOOR ENTRY KITS - 2 WIRE FLUSH MOUNTED PANEL	
F6201	1 way 1 row, Audio Door Entry Panel + PSU, 1 x F22220B Handset
F6202	2 way 1 row, Audio Door Entry Panel + PSU, 2 x F22220B Handsets
F6203	3 way 1 row, Audio Door Entry Panel + PSU, 3 x F22220B Handsets
F6204	4 way 1 row, Audio Door Entry Panel + PSU, 4 x F22220B Handsets
F6205	5 way 1 row, Audio Door Entry Panel + PSU, 5 x F22220B Handsets

SERIES 5 AUDIO DOOR ENTRY KITS - 5 WIRE FLUSH MOUNTED PANEL	
F6101	1 way 1 row, Audio Door Entry Panel + PSU, 1 x F22510B Handset
F6102	2 way 1 row, Audio Door Entry Panel + PSU, 2 x F22510B Handsets
F6103	3 way 1 row, Audio Door Entry Panel + PSU, 3 x F22510B Handsets
F6104	4 way 1 row, Audio Door Entry Panel + PSU, 4 x F22510B Handsets
F6105	5 way 1 row, Audio Door Entry Panel + PSU, 5 x F22510B Handsets
All Easy Kit 2 and 5 wire kits are available up to 10 way off the shelf. Please contact the sales office for prices	

ACCESSORIES FOR SERIES 2 OR 5 FLUSH PANELS - SURFACE SURROUND (ANODISED ALUMINIUM)	
F1P1	Surface Surround 1 row for 1 or 2 way Windsor audio door entry panel
F1P2	Surface Surround 1 row for 3 or 4 way Windsor audio door entry panel
F1P3	Surface Surround 1 row for 5 or 6 way Windsor audio door entry panel

ACET BY TONNA - ANTI-VANDAL 2-WIRE S/S AUDIO DOOR ENTRY KITS

Flush Stainless Steel Anti vandal Audio door entry panels.

- For use with 2 or 5 wire systems.
- Braille plus tactile engraving available upon request to comply with DDA legislation.
- Suitable for 6 core alarm cable
- Engraved to Customer requirements - 2 characters per button free of charge - Additional characters charged dependant on requirements
- Kit form includes handset

SARACEN ANTI-VANDAL STAINLESS STEEL FLUSH AUDIO DOOR ENTRY KITS		
NEW	F2AVS1FK	1 way flush mounted stainless steel audio door entry system

NEW	FPROXCUT	Additional charge to add Proximity reader cut-out to panel (Proximity reader not included)
	Please contact our Technical Support - tel no. 01704 502815 for a full system quotation. Larger size panels and Video entry versions are available to order	

ACET BY TONNA - VIDEO DOOR ENTRY

A flexible range of superb quality hands-free colour video door entry products specifically for installation in multi occupancy dwellings

- Simplicity of installation is the key to the ACET systems
- Outdoor stations and monitors powered by a single power supply
- Cabling schematics available on request

TONNA ACET COLOUR AUDIO VIDEO ENTRY SYSTEMS		
NEW FAV-1	1 Way Audio/Video, Flush Panel, PSU & 1 Monitor/Handset
NEW FAV-2	2 Way Audio/Video, Flush Panel, PSU & 2 Monitor/Handsets
NEW FAV-3	3 Way Audio/Video, Flush Panel, PSU & 3 Monitor/ Handsets
NEW FAV-4	4 Way Audio/Video, Flush Panel, PSU & 4 Monitor/ Handsets
Above Video entry kits are available up to 30 way. Mono-chrome adjustment is available for night viewing		
TONNA ACET COLOUR AUDIO VIDEO MONITOR/HANDSETS & ACCESSORIES		
F22701COL	Ellisse Colour/Monochrome Video Monitor 7 Handset wall mounted
F682536	Hands free Colour Monitor, wall mounted
F22742	Acet Colour Video Camera Module
F22803	Video Monitor Power Supply Unit (for up to 4 Monitor/ Handsets)
F21847	Video Monitor Power Supply unit (for parallel Monitor / Handset connections)
F10169	4 Way Video Distribution unit
F10030	Video Multi Entrance switch over device (requires F21809 PSU)
F159/VIDEO	Voltage Free Video Relay (for interface with Fail Safe Locks or Gate automation)

ACET BY TONNA - 2 WIRE TELEPHONE HANDSETS & ACCESSORIES

- Attractive stylish Ellisse handsets provide a modern look with a slim line surface mount
- Accessories to suit 2 wire and 5 wire options

TONNA ACET 2 WIRE TELEPHONE HANDSETS & ACCESSORIES	
F22220B	Ellisse 2 wire Telephone Handset, Dual Tone call, for ACET 2 wire system
F22205B	Ellisse 2 Wire Telephone Handset, Dual Tone call, c/w privacy switch & reassurance lamp
F22200TB	Ellisse 2 Wire Desk Top Telephone Handset, Dual Tone call
F21227	2 Wire Speaker Amplifier, Dual Tone call, c/w volume control
F21038	2 Wire Multiple Entrance Speaker Amplifier, c/w volume control
FC21	Secrecy of conversation device (for 2 Wire Systems), one per way required
TONNA ACET 5 WIRE TELEPHONE HANDSETS & ACCESSORIES	
F21323	5 Wire Speaker Amplifier, c/w volume control
F22500/B	Ellisse 5 Wire Buzzer Handset
F22510B	Ellisse 5 Wire Telephone Handset, Dual Tone call (only to be used with F21323 Speaker)
F22505B	Ellisse 5 Wire Telephone Handset, Dual Tone call, c/w privacy switch & reassurance lamp
TONNA ACET COMMON ACCESSORIES TO BOTH 2 & 5 WIRE SYSTEMS	
F1044591	Universal timer module 1-sec to 1-hour 12V AC/DC Power input required
FTC/4	Digital 24/7 Time Clock with BST/GMT Adjustment
FTE/MOD	Tradesman's modification (Note: Not available for Pulsar or Easy Kits)
F159/12	12V AC/DC Relay unit, Single pole COM, N/O, N/C, for Acet Door Entry Systems
F21809	Power supply unit 12V AC 1.5 Amp Output, 4 Din Module
F21811	Power supply unit 12V AC and battery charger, 8 Din Module
FB5/3.2	Rechargeable Battery 12V DC 3.2 Amp hour (For use with F21811 PSU)
DOOR BELL REPLACEMENT AUDIO ENTRY KIT (2 WIRE)	
An easy conversion kit from doorbell to audio door entry. Please note no further phones can be added to this unit.	
F55000/S	1 Way 2 Wire Door Bell Replacement Kit, Surface Mounted Panel

BRITON ELECTRO-MAGNETIC HOLD-OPEN DOOR CLOSER

The Briton Electro Magnetic Hold Open Door Closer is supplied with a silver cover and black arms.

- Certifire Approved CF109
- Dual function can be set to either Hold Open or Swing Free operation
- Parallel applications ordered separately
- Capable of meeting BS8300 requirements
- Supplied with matching or black arms
- 24V DC size 3 unit

BRITON ELECTRO-MAGNETIC HOLD-OPEN DOOR CLOSER	
ANT996	Briton Electro Magnetic Hold Open Door Closer, inward opening, 24V DC size 3, Figure 1, Silver c/w Black arm
ANT996/66	Briton Electro Magnetic Hold Open Door Closer, outward opening, 24V DC size 3, Figure 66, Silver c/w Black arm

AGRIPPA SOUND ACTIVATED FIRE DOOR CLOSER

The Agrippa sound activated fire door closer is a safe and legal solution that allows a fire door to be held open in any position. The door closer is a swing-free device making the door resistance free, light and easy to move.

The Agrippa door closer 'listens and learns' the sound of your specific fire alarm, only releasing the door in the event of a fire.

AGRIPPA SOUND ACTIVATED DOOR CLOSER	
AEM0070-SE	Sound Activated Fire Door Closer c/w free swing arm, size 4 wire free, battery operated, Silver

DORMA LOW ENERGY AUTOMATIC SWING DOOR OPERATORS

NOTE: All kits are available with either a Push or Pull application door operator

PROMINENT EFFICIENCY
DISCREET TECHNOLOGY

The Boxer. Closes doors perfectly, but it's hard to see how.

The Boxer overhead door closer is integrated into the door leaf or frame so it is completely hidden from view - ideal for where an anti-ligature product is required. Available in single or double action versions, it has a variety of hold open options and a cam action means easy operation, too.

Naturally, as a GEZE door closer, the Boxer conforms to all relevant building standards, has CE approval and a valid Declaration of Performance and Certifire fire certification.

Combining durability, aesthetics and compliance it's easy to see how the Boxer is perfect for any environment.

Door Technology | Automatic Door Systems | Window Technology | Safety Technology

GEZE DOOR CONTROLS

GEZE offers door closer systems for any type of door with a range of individual setting options. From the smallest overhead door closer to the multi-faceted variations for use with fire and smoke protection doors.

The door closer ranges with link arm or guide rails offer a range of combination options to meet every requirement.

Please Note:
All Door Closers available in a variety of finishes

TWINFLEX ASD

Includes built-in End of Line & Base

The alternatives don't stack up!

FIKE 2 WIRE CONVENTIONAL FIRE SYSTEMS

The Fike Twinflex Pro 2, 4 or 8 zone fire alarm panel is a 2-wire or bi-wire panel using conventional cabling format (radial per zone where all devices can be installed on the same cable so no need for separate sounder circuits).

Capable of running up to 32 devices per zone, devices communicating with the panel do so via the Twinflex data protocol

The attractive panel, with LCD display and keypad for quick configuration, has an integral battery powered power supply unit that can provide up to 72 hours standby time in the event of mains power failure. It also has an event log which can hold up to 500 events, a day/night mode and alarm confirmation mode.

FIKE TWINFLEXPRO TWO WIRE FIRE DETECTION EQUIPMENT	
FDWP2-PRO	505-0002 - PRO 2 Zone Panel and Power Supply (Requires F140 Battery Pack)
FDWP4-PRO	505-0004 - PRO 4 Zone Panel and Power Supply (Requires F140 Battery Pack)
FDWP8-PRO	505-0008 - PRO 8 Zone Panel and Power Supply (Requires F140 Battery Pack)
FDWPRO-REP	505-0010 - TwinflexPro Repeater Panel - Only available for use with 4 & 8 Zone TwinflexPro Panels using version 2.0 software

FIKE TWINFLEX KITS

FIKE TWINFLEX KITS	
FDWK604-0002	604-0002 - TwinflexPro Starter Kit, Comprising 2 Zone Panel, 6 x ASD w/s, 1 ASD w/s/strobe, 2 x FDW100 MCPs, 1 x FDW500 (Requires F140 Battery Pack)
FDWK604-0004	604-0004 - TwinflexPro Starter Kit, Comprising 4 Zone Panel, 6 x ASD w/, 1 ASD w/s/strobe , 2 x FDW100 MCPs, 1 x FDW500 (Requires F140 Battery Pack)

FIKE TWINFLEX ACCESSORIES

This control panel is only compatible with Twinflex devices and requires one 2-core screened cable for each zone.

The system recognising the difference between manual call points and smoke detectors, the Twinflex Pro system control panel also monitors each fire zone for detector head removal, faults with devices, open or short circuits and end-of-line faults.

FIKE TWINFLEX ACCESSORIES	
FDW100	402-0006 - Twinflex Manual Call Point - Re-settable
FDW100-IP65	402-0007 - Twinflex Weatherproof call Point Surface IP65

FIKE DUONET & QUADNET ADDRESSABLE SYSTEM

The Duonet & Quadnet intelligent fire alarm systems offer both cost-effective and reliable solutions for a wide variety of fire detection applications. The innovative technology built into the Duonet and Quadnet panels is designed to significantly reduce false alarms. The systems can support up to 200 Multipoint ASD combined detector/sounders on a single loop.

Powerful software gives the capacity of up to 4 loops for the Quadnet and 2 loops for the Duonet panel, making addressable Multipoint ASD detector technology available to customers with systems up to 800 devices.

FIKE DUONET & QUADNET ADDRESSABLE SYSTEM	
AFI510-0001	Duonet 1 - 2 Loop Control Panel - NOTE for 2 loops an additional loop card will be required (Requires F141 Battery Pack)
AFI510-0002	Duonet Repeater Panel - (Requires F141 Battery Pack)
AFI507-0001	1 - 4 loop Quadnet Control Panel and PSU - NOTE For up to 4 loops additional loop cards will be required (Requires F141 Battery Pack)
AFI507-0002	Quadnet Repeater Panel (Requires F141 Battery Pack)
AFI507-0030	Quadnet & Duonet loop card, for expanding the number of loops on a panel and for replacement purposes

Securefast
Academy

Securefast offer free training sessions aimed at sales and specification personnel. Courses are available at any of our locations.

Each course offers the following basics:
- Introduction to Access Control
- Introduction to Hotel Locking
- Introduction to Networked Access Control

More advanced courses including installation/commissioning and CPD courses on EN 13637, Electric Panic Systems and Access Control Security are available on request.

For details please contact the Sales Office

FIKE DUONET & QUADNET ACCESSORIES

The Multipoint ASD detectors have set new standards in detector technology.

The TWINFLEX Multipoint ASD head is a 2-wire device used with the TWINFLEX and TWINFLEX Pro systems, whereas the Addressable ASD detector is used on the Duonet and Quadnet systems. Using microprocessor control these devices offer the installer a full range of detection capabilities with audible and visual warning in one compact device for full DDA compliance.

The detectors can be matched to the environment in which they are installed and changed any time during the lifetime of the installation.

FIKE DUONET & QUADNET DETECTORS FOR ADDRESSABLE SYSTEM	
AFI205-0003	Multipoint ASD Smoke & Heat Detector (Requires AFI905-0001 Base)
AFI205-0001	Multipoint ASD Smoke & Heat Detector with Sounder (Requires AFI905-0001 Base)
AFI205-0012	Multipoint ASD Detector wit Sounder/Strobe (Requires AFI905-0001 Base)
AFI905-0001	Multipoint ASD Detector Mounting Base: Pack of 5

The Twinflex 2-wire and the Duonet/Quadnet intelligent addressable systems are supported by a wide range of ancillary devices, many of which have been designed to comply with EN54-3.

Auxiliary digital inputs and outputs are available at any Multipoint ASD detector.

FIKE DUONET & QUADNET DETECTORS FOR ADDRESSABLE SYSTEM	
AFI403-0006	Manual Call Point - Resettable
AFI403-0007	Manual Call Point Weatherproof IP65 - Resettable
AFI313-0001	Sound Point - Red - 90dB output
AFI323-0001	Hi Point Sounder - 87dB output
AFI326-0023R	Sounder : Deep Base - 88dB output
AFI25-0046201	Multipoint ASD Head Removal Tool
AFI900-0003	Multipoint ASD Detector Deep Back Box
Due to the complexity and inherent importance of a life risk system, training on this system is essential and commissioning should only be carried out by competent persons	

ZETA CONVENTIONAL 2-WIRE FIRE PANELS

The Infinity 8 control panel is housed in the most attractive, modern designed, flame retardant ABS enclosure, utilising a switch mode power supply.

- Access via password – removes problem of lost keys
- Disablement facility for zones & sounders
- Space for up to 3.2Ah batteries
- Sounder delay option
- 4 sounder circuits (IN4, IN6 & IN8)
- Sounder circuits 3 and/or 4 can be configured as Aux 24V DC supplies

ZETA FIRE PANELS	
FIN1	Infinity 1 Zone Panel (Required F140 Battery)
FIN2	Infinity 2 Zone Panel (Required F140 Battery)
FIN4	Infinity 4 Zone Panel (Required F140 Battery)
FIN6	Infinity 6 Zone Panel (Required F140 Battery)
FIN8	Infinity 8 Zone Panel (Required F140 Battery)

ZETA CONVENTIONAL FIRE DETECTORS

Suitable for detecting optically dense smoke, involving materials such as soft furnishings, PVC, plastic, foam and all similar materials which produce small visible particles (0.5 to 10μm).

The Fyreye Rate of Rise heat detectors (MKII-HR) use a thermistor arrangement to sense a quick rise in temperature and also a final threshold temperature of 57°C. The Fyreye fixed heat detector (MKII-HF) has a single thermistor arrangement that gives an alarm at a temperature of 57°C.

ZETA FIRE DETECTORS	
FMKII-HF	Fyreye Fixed Heat Detector (Requires base)
FMKII-HR	Fyreye Rate of Rise Heat Detector (Requires base)
FMKII-OH	Fyreye Optical Heat Detector (Requires base)
FMKII-OP	Fyreye Optical Smoke Detector (Requires base)
FMKII-DB	Fyreye Diode Base

CONVENTIONAL FIRE SYSTEM ACCESSORIES

The red MCP can be used with conventional fire systems requiring either a resettable or break glass options.

The manual call point from the KAC range is conventional only for use on conventional and non-addressable fire alarm systems. The call point is supplied with a plastic resettable element making it easy to reset after the call point has been activated. With the plastic element included, it makes it ideal for kitchen environments as glass won't be present for contamination into food.
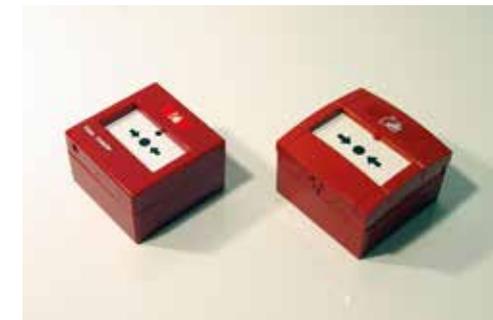

CONVENTIONAL CALL POINTS	
(Please check with out sales office for compatibility, Tel No. +44 (0) 1704 502815)	
FCP102	Call Point - Red - Break Glass with Resistors
FCP101	Call Point Test Keys Pack of 5 for FCP100 / FCP102
AKA-MCP1A-RF	KAC Call Point - Red - 470 OHMS Resettable

CONVENTIONAL FIRE SYSTEM ACCESSORIES

A range of bells and sounders are available for conventional fire systems.

(Please check with our Technical Support for compatibility, Tel No. +44 (0) 1704 502815)

BELLS & SOUNDERS	
(Please check with out sales office for compatibility, Tel No. +44 (0) 1704 502815)

HIGH GRADE SIX PIN STANDARD CYLINDERS

Patent Protected and achieving the highest levels of security and durability required by BS EN 1303:2015, the high grade cylinders are a high security, 6-pin cylinder system suitable for large scale projects.

Its patented design incorporates a Reef™ pin which must match the signature on the underside of the key profile. Without a match, the cylinder lock will fail to operate.

Our stars are in the ascendant.

TS007

Securefast 3 Star cylinder packages to TS007:2014

Our 1 star rated security cylinder offers protection from drilling, picking, bumping and plug extraction.

Our 2 star rated security escutcheon offers snap protection and prevents access to the cylinder.

Together, they provide the highest level of security with a 3 Star rating. **See pages 82-83.**

SNB1	Snib Blanking Plate - Satin Chrome

THE ACCESSIBLE SOLUTION

Conventional European and UK style lockcases have the cylinder below the lever. Our **Accessible Locks** reverse this, giving easier access to the locking function. Combined with larger centres, it makes operating the lock much easier, especially for elderly and disabled users.

MODULE 1200 SCANDINAVIAN LOCK CASES

Range of Scandinavian lock cases with a Scandinavian oval cylinder profile. Ideal for developments to cater for persons with special needs as the cylinder is fitted above the lever handle.

- Stainless Steel forend
- Uses Scandinavian Oval Cylinders
- 50mm backset

Securefast

Safe, Secure & Simple

Sliplock

Sliplock™ Cable Restrictor – SBC400/WE

Securefast unobtrusive **Sliplock™** Cable Restrictor is designed for safety and to reduce the risk of falling out of a window. It can also be fitted to doors to deter forced access from unwanted visitors.

The **Sliplock™** cable window restrictor is suitable for the home, public properties, and commercial applications. Perfect for care homes, hotels, nurseries, schools, universities and hospitals. It is the ideal solution to prevent accidents and provide improved safety and additional security for opening windows and doors.

Benefits & Features

- **Sliplock™** is a trade mark of Securefast
- Certification to BS EN 13126-5 : 2011 & BS EN 14351-1 : 2006 + A1 : 2010
- Metal cable securely fixed between two robust metal units
- Restrictor locks by sliding the detachable unit over a back plate fixed to the window opening.
- Frame unit is fixed securely to the frame giving restriction by length of cable and positioning on the frame
- Features a dedicated key to release the locking case.
- Casing slides off the back plate once unlocked to allow full access to the window when needed for maintenance
