DB702U

Dx700 Series wide point detector base

General

The DB702U is a large rim conventional fire detector base used for all 700 series conventional fire detectors. It includes a normally closed continuity switch to allow for easy cable testing during installation. Inserting a detector into the base "opens" the continuity switch in the base to allow for standard open circuit monitoring. A locking mechanism implementation in conjunction with the detector allows for the detector to be safeguarded against unauthorized removal.

Details

- Insert detectors without using force
- One way only fit
- Locking mechanism provided

DB702U
Dx700 Series wide point detector base

Technical specifications

General

Compatibility	Aritech 700 series detectors
Connectivity	2-wire zone with COM/NO/NC or remote indicator

Electrical

Terminals	6

Physical

Physical dimensions	150 x 15 mm (Ø x H)
Net weight	106 g
Colour	Cloud white (RAL 9001)
Mounting type	Ceiling mount
Cable entries	1
Material (body)	Plastic

Environmental

Vandal proof	No
Operating temperature	−10 to +50°C
Storage temperature	−10 to +70°C
Relative humidity	10 to 95% noncondensing
Environment	Indoor

Regulatory

Compliancy	CE, REACH, RoHS 3, WEEE
